1968 GTO / Lemans Power Disc - Convertible Full Brake Line Set 8pc.

Inline tube

The Professional Restorers #1 Choice

Tech Support 586 532 1338

This is a factory brake line set for unmodified cars using original components. This braking system has a hold off valve at the master cylinder with red 7/16-24 fittings and a frame distribution block that must be reused or are available new from inline tube. The front to rear brake line uses a orange 1/2-20 fitting at the valve. This is every hard line in the system.
